The Declaration filed on February 11, 2002, under 37 CFR 1.131 is sufficient to overcome the JP 7-155343 A reference.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 37, 38, and 42 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Sandmark, SE 8801686 A.

Claims 39-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sandmark, SE 8801686 A. The act of lubricating a residual limb prior to insertion into a suction socket is well known among amputees and prosthetists alike, and to use such a procedure with the Sandmark device would have been obvious in order to enhance comfort and to facilitate the Sandmark donning and doffing method.

The Applicant's remarks have been considered but are deemed to be moot in view of the new grounds of rejection, which were necessitated by the Applicant's response of changing the effective date of the instant invention under 37 CFR 1.131. Therefore:

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3738

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
